PROJECTS

Cine Pass – React.js, Tailwind CSS

Project Link: <https://cine-pass.netlify.app>

- Developed a user-friendly movie ticket booking front-end web app, providing descriptive movie details and a seamless user experience on desktop, tablet and mobile devices through responsive design.
- Integrated real time movie information from TMDB (Movie Database) API. Successfully deployed on Netlify and completed this project in 5 days.

Tasky – HTML, CSS, Bootstrap & JavaScript

Project Link: <https://tasky-blond.vercel.app>

- Empowered users to manage tasks with optimized descriptions, including images, titles, categories, and detailed descriptions, utilizing up to 5 MB of browser storage. Facilitated easy task review whenever users visit the website.
- Boosted productivity for users to reach their goals with a project completion time of just 2 days.

Space X website Clone – HTML, CSS, JavaScript

Project Link: <https://clone-space-x.netlify.app>

- Recreated the Space X website including Homepage, menu and some inner pages and also created some micro animations with the help of the CSS keyframes and completed this project within 1 day.
-
